Profile

Full-stack developer with a bachelor's degree in Computer Science from Universidade Católica de Brasília (UCB), experience in client-side and server-side development, frameworks and databases. Active, always looking for the best way to handle and premeditate possible problems. I participate easily in teamwork, communicative, technical, agile and helpful.

Professional experiences

WEB/CODIM | CENTRAL BANK OF BRAZIL | 2021 - 2022

· As a member of the web development team, I participated daily in the department's decisions through meetings regarding the maintenance, updating and correction of codes in the internet and corporate intranet environments of the Central Bank of Brazil. I participated in the migration of old structures to the new format, publication of documents and other files in the production environments of the bank.

DEVELOPMENT OF THE SYSTEM OF REGISTRATION AND MANAGEMENT OF EXTENSION PROJECTS OF THE CATHOLIC UNIVERSITY OF BRASÍLIA | JAN 2022 – DEC 2022

· Acting in the front-end team, development with React (using the Matrial-UI component library). I was also present in the back-end development in Node. Project developed with the help of agile methods (Scrum with board in GitHub projects and Challenge Based Learning), the responsive web application (MVP) was developed to improve and automate the entire existing structure, which involves teachers, students and foreigners in the administration process, registration and participation in the university extension projects. **This project was presented and defended to the board of the Catholic University of Brasilia as the end of course work, getting the maximum grade**.

Other experiences

. **PHP, Node, Java and Python together with React and Vue.js front-end libraries**: To develop RESTful applications using various libraries and tools related to the languages, e.g. build automation tool (Maven), microservices with SpringBoot and Flask, Laravel with Inertia.js together with React. I have experience with MySQL and MongoDB databases. Repositories available on my GitHub.

. **InovaAsbac Challenge Hackathon:** Fenasbac Institute (Sept. 06, 07 and 08, 2019 totaling 48 hours).

Education

BACHELOR IN COMPUTER SCIENCE | 2019 - 2022 | CATHOLIC UNIVERSITY OF BRASÍLIA, BRASÍLIA - DF.

Certifications and courses in progress

· Web - Javascript, Angular, React, Next, Vue, Node, HTML, CSS, jQuery, Bootstrap, Webpack, Gulp and MySQL | COD3R | 97h.
· Fundamentos Java - POO, Functional Programming, MongoDB, Spring Boot, JavaFX, JPA and Hibernate | COD3R | 77h.
· Introduction to MySQL database.
· Introduction to the Linux operating system.
· Introduction to computer programming.
· Introduction to HTML language.

Idioms

. English: Understands very well, speaks reasonably well, reads well, writes well.
